Virtually Safe

SHORT FILM COMPETITION REPORT

Google.org

IMPACT AMPLIFIER

Powerful visuals has the ability to evoke strong emotions, create lasting impressions, and drive social change.

Through storytelling, we can expose the often hidden dangers of the digital world, fostering empathy, awareness, and a collective desire for change.

About

The Virtually Safe School Short Film Competition is an exciting opportunity for students to showcase their acting abilities, creativity, and teamwork by creating and performing original skits. Whether they are a budding actor, playwright, or director, this competition is a platform for artistic expression, innovation, and entertainment for the promotion of online safety.

The themes of the short film competition are focused on the following:

TROLLS- Exposing online manipulation

CRUISE - Highlighting Impact of online harassment

BULLIES- Trolls and Cruise-Terrorists of the Internet.

Problem Statement

The internet is a tool for connection and information but unfortunately has its negativity. The anonymity presented by the internet allows malicious acts such as "trolls," to spread misinformation, sow discord, and exploit vulnerabilities. This led to "online cruise" popularly known as “Naija cruise” which is a form of online harassment. This harassment can further lead to emotional distress, damage reputations, and even lead to real-world harm.

By focusing on these prevalent issues through short films, this competition aims to encourage discussion and collaboration on how to create a safer and more positive online environment.
